

ECINEQ – The Society for the Study of Economic Inequality

ECINEQ non-commercial repository for databases

Call for proposals

ECINEQ provides an international forum for researchers interested in the analysis of economic inequality and related fields, bringing together a diversity of perspectives, improving the interaction between academics, policy-makers and other actors interested in understanding the determinants and the implications of economic inequality and its measurement.

In 2024, ECINEQ decided to offer the possibility to host in our webpage novel databases on inequality and now invites interested parties (e.g. research institutions, academics) to submit their requests for having their databases hosted in the [ECINEQ website](#).

Currently the databases available are:

- [Global Estimates of Opportunity and Mobility](#)
- [The CEQ Data Center on Fiscal Redistribution](#)

For further information, please, write to info@ecineq.org.
